**FRESH GROCERIES.**  
WE have just received a large lot of choice  
Fruit, and having given personal attention to  
purchasing will be enabled to knock the Railroad  
and old credit stores into the middle of next week.  
If you want the worth of your money, go where  
they want money. As the credit stores as yet  
don't see the grass. Pay Day will come, and  
big interest and large profits will consume your  
substance. We sell for cash and therefore can and  
will sell cheaper than any credit house can. The  
item of interest alone will pay profit. This  
alone answers the question often asked us—  
"How can you sell so cheap?" Quick sales and  
small profits often turned, will pay better than  
selling goods at 50 per cent. on twelve months  
time. Call and examine our stock, and bring along  
your Bacon, Lard, Hams, &c.

We invite the particular attention of our  
readers to the following extract on the sub-  
ject of the Federal expenditures. The facts  
and figures are all obtained from official re-  
ports of Government officers, and are there-  
fore undeniable:

"The expenses of the Government, as  
you have probably often heard, have in-  
creased enormously within a few years.—  
The amount of money at the disposal of  
Government this year is more than one hun-  
dred millions of dollars. This, I know,  
has sometimes been disputed; but I have  
the official statement made by the Clerk of  
the House of Representatives, showing that  
more than eighty-one millions were speci-  
fically appropriated at the last session of Con-  
gress, and there are indefinite appropriations  
to pay claims, the precise amount of  
which is not yet known; which amount at  
the lowest estimate, to three millions and a  
half, making over eighty-four millions, and  
there is an unexpended balance of appropria-  
tion made last year, amounting to  
more than sixteen millions. These sums  
altogether make more than a hundred mil-  
lions of dollars, at the disposal of the Ad-  
ministration for the present fiscal year. I  
know it is said that it is unfair to charge  
all this to this year; that a surplus will re-  
main at the end of this year, to be carried  
to the next list; but I think it is much more  
likely that the Administration will come in  
with a deficiency bill, and ask for some ten  
millions more, as they did at the last Con-  
gress, than that any surplus will remain.—  
The expenses of the Government during  
the administration of General Pierce were  
\$232,820,632. This is more than all the  
expenses of the Government from 1790,  
when it was organized, for thirty years to-  
gether, including the war with Great Brit-  
ain in 1813. General Pierce expended  
more money during four years of peace than  
our Government expended for the first thirty  
years after its organization. In 1823,  
the expenditures of the Government, for  
all purposes, exclusive of the public debt,  
were \$9,784,154 59. In 1857, the expenses  
of the Government, exclusive of the  
public debt, were \$65,032,559 76. The  
pro rata, according to the population in  
1823, was ninety-four cents on each indi-  
vidual. The pro rata in 1857 was two  
dollars and twenty-eight cents per man—  
ninety-four cents to two dollars and twenty-  
eight cents, according to population.—  
These facts ought to attract the attention of  
the country; but perhaps if I were to state  
in detail some of the wastefulness of this  
Government, some of the means by which  
these expenditures have been increased, it  
would strike some minds more forcibly. I  
will call your attention to the city
